# Adna Has Advised Leading Construction & Engineering Companies Tecnovia And Grupo Omatapalo On Three Mous Signed With The Drc's Ministry Of Water & Electricity For The Development Of Three Drinking Water Projects.

*Posted on November 16, 2026*

**Category:** Press

The agreements cover drinking water collection, treatment and distribution projects in Kolwezi (Lualaba), Likasi (Haut-Katanga) and Kisangani (Tshopo). They will expand access to safe water and improve living conditions for local communities as part of the DRC's national water and sanitation strategy.

The MOUs lay the groundwork for feasibility and technical studies, as well as the financial and investment structuring of the future water supply infrastructure.

Proud to have advised on this milestone matter for such an essential resource. Partner **Serge Nawej Tshitemb'u** led the ADNA team, assisted by associate **Grâce M'Vunda**.
