We are proud of our hat-trick at the 2025 IFLR Africa Awards, a celebration of the most innovative and impactful legal work across the region. This recognition is a testament to both the trust our clients place in us and also the dedication of our team.

This is a shared success - thank you to our clients for letting us be part of your journey, and thank you to our team for helping us collectively achieve these milestones as a still relatively new firm – even we forget sometimes that ADNA was only founded 4 years ago.
